PREFACE

I never got material justice through a Court Order which at the bare minimum would have been the severance payment from the University of Greenwich and the refund from the Cabinet Office of the £4170 that I had to pay the Cabinet Office under duress through District Judge Lightman's Order of 21 June 2021 under Claim Number E35YM660.

I had my principles as to how I would go about accessing justice and I never deviated from that modus operandi, justice or no justice I would not allow truth to get covered over.

I fought for justice, but I did not beg for justice. I was not and am not a slave to the State.

MAKING IT UP AS ONE GOES ALONG

[Edited: 10.28 am, 7 March 2025]

Words are just descriptive-expressions that we have inherited from past generations of human beings. They are open to different interpretations as suits a particular *raison d'être*. When one is living in the freedom of *satya-advaita yoga*, one necessarily makes up new words as one goes along or adapts old words to meet a particular requirement in terms of what one is trying to express. It is in this context that my books are to be read and the readers have to form their own opinions on whether I have been crystal clear on what I have thought about relating to my experiences of life over the past 27 years. I am of course open to providing any clarifications needed on the basis of my actions at any particular point in time and how I have expressed these in the 345 eBooks that I have so far written in the series under the theme, 'The Allurement of Reality'. But I hope that no such clarifications would be necessary or me be called upon to answer: I wish to let my books do the talking, hence I am editing this post now that I have some free time. This is because I am not a very good speaker in public, and even in the creation of Videos that I attempted over the past year to develop my websites. I am good at writing. For I

allow truth to just flow into my mind at the appropriate time and this creates the works that I have been producing.

So in what context am I using the words Samadhi and Mahasamadhi. I wish to make it clear at this point in time. For me Samadhi seemingly started on completion of my Book Truth-accommodation (Satya-advaita) and I started writing the book 'Post-realisation Musings'. They were semi-conscious assessment of the knowledge that I had gained and the missing data that I needed to be searched for still in order for me to arrive at a comprehension on the Conception of Reality, the first book under the theme 'The Allurement of Reality' that I had started writing in 2004 when I came out of the mental hospital for the first time. It grew and grew into what it the Realisation is today. I had tried to consider numerous times during these years that I had had total Realisation, even my elder sister in India had pointed to this in one of her utterances to me, but it turned out not to be the case. When can Realisation be complete when one does not know what there is to Realise. It had to be awaited with patience. And I formulated a plan of self-discovery to try and get to it. This was to have a framework where I hypothesised that everything in the universe is pre-ordained and pre-orchestrated, so there was God having set the universe in motion in a particular manner; the best bhakti that I could approach God with was to discover my own fate within the Grand Design, and this was latterly over the period 2020 or so done through losing all attachments, and acting nonchalantly, spontaneously and unpremeditatedly in all my moment by moment actions as the only karma that I would engage in that could with certainty be then described as sanatana dharma, that is to say karma in sanatana dharma.

Mahasamadhi is total Realisation when one does stop one's karma in sanatana dharma and lives in Yoga-ananda, the yogadaan emanating from one's dedication to the comprehensive approach to yoga.

When I seemed to be surviving the persecution that was vitriolic against me in conducting myself in this manner I was picking up evidence of Dharma Rakshati Rakshita as being the eternal law of the universe, and this has not changed at the moment that I first wrote this posted account at 10.37 am on the 12 of October 2021.

Universities should encourage open discussions just like restaurants provide transparent menus for informed choices. Whether it's academic freedom or food options, people deserve access to honest, unbiased information to make the best decisions for themselves.

That is the major reason that the judicial and law enforcement and regulatory systems are in total disarray here in the United Kingdom. The established political parties are unable to represent constituents in this process and are also not able to represent the interests of the constituents in parliament. Consequently democracy too is in shambles. I am talking from direct personal experience over a 26 year period.

In Samadhi state of Vishista Advaita Vedanta, one is allowed to create one's own Sampradaya, that is a congregation.(Edited)

Sarvesh, I was out of the house so could not respond to your greeting me by my first name. You have such a meaningful surname which I have never before come across, so you have to live up to that, No?. In any case, I live and learn every day and today was no exception. As I learn more I focus into my truth path with greater clarity. I am explaining this because my yoga has not quite finished. In the past half an hour I was talking to our daughter and I said to her that one only corresponds with people who are on the same wavelength as oneself otherwise it causes avoidable friction. And I am a deeply pacifist non-violent person and the more so as I learn more. I have therefore decided that I will only correspond with people within my religious congregation Sampradaya. If you wish to interact with me I would provide you with more details of my Vishista Advaita Sampradaya in plain English as to what its components are and so on.

Thanks Mahender for giving me the opportunity to explain myself. I am a yogi still and since I now realise that the universe is infinite, it has to be deduced that the amount of learning that one can muster within one's lifetime falls way short of what is required by an individual. So on what basis have people of a bygone age written so-called 'Holy books' like Koran, Bible, Guru Granth Sahib, the complete works of Buddhism, when I as a 68 year old now and have been a scientist working in the laboratory with a PhD, Post graduate Diploma in Agricultural Development, published 35 scientific papers and then studied Humanology Freelance with 362 chapters of a book entitled 'The Allurement of Reality' developed 'The Conservative Libertarian Society' with its two Membership websites according to the linked conceptualisation:

Hello, I usually try and find people to connect with for a given objective by fishing in the dark to save on time so go about this through a random selection of individuals. This is to assist my

yoga process each step of the way through what I defined as satya-advaita yoga. I do however feel a sense of responsibility to initially respond back to an accepted-invitation with an acknowledgment-greeting and this is the purpose of saying 'Hello' to you. Please bear this in mind before interacting with me with a conversation.

It's time to grow your money

Hi Shantanu,

If you want to make your money work harder for you, consider moving money that you don't need to access regularly into an account that pays a higher rate of interest.

You can choose from a range of bonds and ISAs that offer a fixed interest rate over a set period of time, and flexible accounts that provide some access to your money.

If you're unsure how often you'll need to withdraw money, you can spread your balance across different accounts. This can help you access your money for daily spending, while enjoying a high interest rate on your savings.

Comments in Conclusion:

Evil is what evil does. I have had enough of testing whether evil can be tamed through common courtesy conduct. It cannot. It is intrinsic to Brahma-Nature and will never go away if it did not go away for 27 years of pacifist-confrontation for me here in the United Kingdom. I need my Sampradaya to be developed unilaterally now to hide in. One cannot acknowledge with a greeting back to accepted invitation, for the Evil State will use that information to concoct evidence to charge its dissenting individuals so as to lock them away in prisons and mental hospitals.

Nothing can be changed in the United Kingdom because it is a Police State and people are treated a subjects not citizens with human dignity. People do not have any faith that God exists and if God exists all inhabitants of Earth are intended to be free not slaves to other powerful vested interests with immense wealth. They made sure that the Constitution enables the dominance of the vast majority by the few, who can use the State Security services to quell dissensions,

The growing movement to restore free speech in Britain's universities highlights the importance of open debate and diverse perspectives in academic institutions. As more individuals and organizations push back against institutional biases, digital media plays a crucial role in spreading awareness and amplifying voices. Using an animation video maker can be an effective way to create engaging and informative content that educates audiences about the challenges and progress of free speech advocacy. Animated videos can simplify complex issues, reach a wider audience, and present arguments in a visually compelling way. In an era where digital storytelling influences public discourse, leveraging animation can be a powerful tool in the fight for open expression.

Hello Sap

I do not wish to be unsubscribed from GoFundMe following the clarification that you have provided; but would like the £50 (not £25 original donation) to be refunded now. This is because Peter Cook did not acknowledge my email as attached ToPeterCook(No News is Good News Peter_UrgencyImmediate)23Mar2025.docx; which was a vital part of the proceedings at the Court of Appeal. I needed Peter Cook to be a Member of Conservative Libertarians (UK) to progress the attempt by the United Kingdom to Rejoin the European Union; as set out in the link: <https://www.theconservativelibertariansociety.com/post/18-march-2025-modus-operandi-of-conservative-libertarians>

 If we unsubscribe you, then you will be unsubscribed from all marketing emails. Would you like me to do that?
 Once a refund is issued it cannot be reversed. Can you confirm that you would like a refund for your donation of 25 - GBP along with the tip of 3.5 - GBP made to the following fundraiser?

 With your confirmation, I can issue that refund for you, and you will receive 100% of your money back within 3-7 business days. The organizer will receive a message to let them know about the refund.
 I will keep an eye out for your response.

Hi Shantanu,

Thank you for your patience so far.

Firstly, I apologize for the inconvenience you have faced so far in this email thread. I understand your customers have reported fraud and also understand how important this is for you. I read the email thread and found that you were concerned about the account with the name "The Conservative Libertarian Publications Limited". Upon checking, I saw the account was deleted.

I have gone through the documents you shared in order to refer to the payment details. Upon checking the details carefully, I was unable to locate any transactions. In order to help us properly locate and identify the debit, I would like to ask you to verify the information you have provided and send us a picture of the debit as it appears on your bank statement.

To share an image with us, you can use our safe upload tool here:

https://support.stripe.com/filepickup/ut_live_3cEV4buRZuTxVBffnoyQy8l

I would also suggest contacting your bank or credit card company to see if they have any further information about the merchant who created the charge (as opposed to Stripe, the payment processor they used).

They should also be able to advise you how to proceed when you see a charge on your bank statement you don't recognize.

I will be looking forward to your response.

Best,

Aarti

Hi Peter,

Thank you for your response.

As I mentioned in the previous email before proceeding, I see that you have not contacted us with an authenticated ticket by logging in to your Stripe account. However, I want to help you and want to provide you with the most accurate information and we're going to need you to take an extra authentication step before we proceed. Our users' account security is extremely important to us here at Stripe and, as a result, we can only give out specific information or take certain actions on a Stripe account if you have definitely authenticated yourself as a user on that account.

You should have recently received an email from us in response to your request which provides an option to authenticate this particular support request. Simply click the link in that email, sign into your Stripe account and everything will be in order. To save you time, I'm providing the same link below:

https://dashboard.stripe.com/confirm_support?t=84SqewECUqYJ21lpw0yHZSfmokAN6zfF

Alternatively, you can navigate to the URL below, login and resend your email to us using the form there: <https://support.stripe.com/contact/login>

Sending a message using that form while logged in will securely connect your message to the account you're writing from. Thank you for understanding - we need to be certain that we are communicating with the legitimate account holder for certain issues to ensure the safety of your account information.

I will be waiting for you to authenticate the ticket.

Subject: Mr Shantanu Panigrahi's e-mails to Go Fund Me ref [Ticket #16037091]

All,

I have now read the attachment which Mr Panigrahi sent. In this you will see that he infers that this matter is part of a much longer series of problems. I'm afraid that these are fictional and vexatious claims. I met him during the 2024 election, when he supported my campaign. He has donated to my campaign three times and, recently, AGAINST my advice. The other issues he mentions such as £640 or so, PayPal, Stripe are nothing to do with me.

I will be reporting Mr Panigrahi to the local police for stalking and libel if he does not cease and desist immediately and will advise him separately of this. I have discovered that he has also

been trying this kind of behaviour with our local MP, whose staff have found his approaches threatening and have blocked him.

In his e-mail, Mr Panigrahu suggests I needed Peter Cook to be a Member of Conservative Libertarians (UK) to progress the attempt by the United Kingdom to Rejoin the European Union; as set out in the link: <https://www.theconservativelibertariansociety.com/post/18-march-2025-modus-operandi-of-conservative-libertarians> I'm afraid that the Conservative Libertarians party is a fabrication of Mr Panigrahu's mind.

I'm afraid you will have to read the rambling document (No News is Good News) to understand. He has invoked God into his argument. I'm afraid that God has nothing to do with this matter.

When I found out he was wanting me to join a far-right group, I advised him to stop further donations. But the donations were made, and the money he donated has been spent in good faith.

There is NO civil case in progress, nor is this to do with a petition, so please ignore the various e-mails. Stripe have nothing to do with this. He made some Go Fund Me donations. That is all. I am sorry that you have been troubled by this matter. See Civil Appeals, Petitions Committee and Stripe. It is purely an issue for Go Fund Me. He also seems to copy in Barclays Bank at one point. No such dealings have been made.

Go Fund Me – please unsubscribe him from further updates. He is using these to pursue his bizarre campaign. I have blocked his e-mail account and will report him to Kent (Medway) Police as a precaution, since he has also visited my home. Mr Panigrahi has admitted separately that he has several complex mental health disorders and perhaps these are at the root of the problem. They however are not my problem, nor are they yours.

All the best

Peter Cook

Sep,

As I have explained, Shantanu donated £25 ages ago, which was spent on the campaign. He then complained. After that he has once again donated after I asked him NOT to do that. I think your suggestion of unsubscribing is the best course of action as this will prevent him from making further donations.

Hello Sap

I do not wish to be unsubscribed from GoFundMe following the clarification that you have provided; but would like the £50 (not £25 original donation) to be refunded now. This is because Peter Cook did not acknowledge my email as attached ToPeterCook(No News is Good News Peter_UrgencyImmediate)23Mar2025.docx; which was a vital part of the proceedings at the Court of Appeal. I needed Peter Cook to be a Member of Conservative Libertarians (UK) to progress the attempt by the United Kingdom to Rejoin the European Union; as set out in the link: <https://www.theconservativelibertariansociety.com/post/18-march-2025-modus-operandi-of-conservative-libertarians>

Hi Shantanu,

This is Sap from the Customer Care team and I will be happy to help you out.

I can understand your concern. I'm sorry that you had to contact us about this issue.

If we unsubscribe you, then you will be unsubscribed from all marketing emails. Would you like me to do that?

Once a refund is issued it cannot be reversed. Can you confirm that you would like a refund for your donation of 25 - GBP along with the tip of 3.5 - GBP made to the following fundraiser?

<https://www.gofundme.com/f/get-brex-it-gone>

With your confirmation, I can issue that refund for you, and you will receive 100% of your money back within 3-7 business days. The organizer will receive a message to let them know about the refund.

I will keep an eye out for your response.

Best regards,

Sap

Hi Shantanu,

Thank you for your patience so far. Firstly, I apologize for the inconvenience you have faced so far in this email thread. I understand your customers have reported fraud and also understand how important this is for you. I read the email thread and found that you were concerned about the account with the name "The Conservative Libertarian Publications Limited". Upon checking, I saw the account was deleted. I have gone through the documents you shared in order to refer to the payment details. Upon checking the details carefully, I was unable to locate any transactions. In order to help us properly locate and identify the debit, I would like to ask you to verify the information you have provided and send us a picture of the debit as it appears on your bank statement.

To share an image with us, you can use our safe upload tool here:

https://support.stripe.com/filepickup/ut_live_3cEV4buRZuTxVBffnoyQy8l

I would also suggest contacting your bank or credit card company to see if they have any further information about the merchant who created the charge (as opposed to Stripe, the payment processor they used).

They should also be able to advise you how to proceed when you see a charge on your bank statement you don't recognize. I will be looking forward to your response. Best,Aarti

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b) For those people of other countries who share the philosophy of Conservative Libertarians you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around

the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b For those people of other countries who share the philosophy of Conservative Libertarians) you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b For those people of other countries who share the philosophy of Conservative Libertarians) you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook.

No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b For those people of other countries who share the philosophy of Conservative Libertarians) you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b) For those people of other countries who share the philosophy of Conservative Libertarians you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet. Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b For those people of other countries who share the philosophy of Conservative Libertarians) you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/> .

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. Thanks for this.

I worked for a British MP so I know the problems at play in the system, and I see why Reform UK are doing so well over here right now.

I cannot help but think that the Conservative Party in the UK has dug its own grave and has been buried alive, trying to get out of the rut.

Very sad but, were I to return to politics right now, I would not hesitate to join Reform UK.

Thanks for your time.

Kind regards,

Mark

Katie, There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet. Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b For those people of other countries who share the philosophy of Conservative Libertarians) you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b) For those people of other countries who share the philosophy of Conservative Libertarians you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

Sorry, I meant I am 67 years and a pensioner, but I keep busy understanding the reality of our existence to find a way to develop ourselves accordingly. I was interested in Politics just as a way of studying Humanity, but I would not get into UK Politics because it lacks democracy in the way I see it should be. TCLS stands for truth, justice and democracy the full form being The Conservative Libertarian Society as a Global movement. We know Personal God exists and we have allegiance to God in whatever work we do in our daily routines. You can become a Member through the attachment content: VishistaAdviataSampradaya(TCLS_TCLP-UK)MEMBERSHIP INFORMATION.docx. Sampradaya is a Hindu word that simply means Congregation. We would invite Christians, Buddhists, Sikhs, Muslims and all shades of ethnicities and gender to our Society. You are invited to join up here: VishistaAdvaitaSampradaya(TCLS_TCLP-UK) MEMBERSHIP INFORMATION; should you be interested in finding out more about what I do in my retirement.

"Today, I had the privilege of attending the Techno Expo London, proudly representing my company, Izdehar!

It was an incredible day filled with innovation, cutting-edge technology, learning from experts, and building strong connections with key figures in the field. With great pride, I carried the message of Izdehar Palestine to the UK, sharing our vision for sustainable technological progress. At Izdehar, we believe that the future lies in innovation, and we are working hard to pave the way for technologies that will make a real difference in our daily lives. Excited for the opportunities ahead and committed to delivering our pioneering vision to the world, we look forward to many fruitful collaborations!"

This past week, I had the incredible opportunity to attend The Business Show at ExCeL London on the 13th and 14th of November — one of Europe's largest and most impactful business events.

Over the two days, I connected with a wide range of professionals, learned from thought leaders, and gained valuable insights into the UK market. The event was a fantastic platform for networking, discovering new trends, and understanding the latest strategies driving business success.

I walked away with not just new knowledge but also fresh perspectives and ideas that I'm excited to put into action. It was an inspiring experience, and I'm grateful for the chance to be part of such a dynamic community.

Looking forward to leveraging these insights as I continue my journey in the business world!

I am not so far informed you that I have initiated a petition in the House of Commons for Parliament to consider developing a written Constitution for the United Kingdom which I think very seriously would be a good thing for the country.

I have managed to secure 4 signatures for the Petition and need just one elusive signatory for the Committee to consider whether it is a go or no go petition as drafted. Please consider this request to sign it here:

Welcome Pack to my Connections in LinkedIn

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet. Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

Welcome Pack to my Connections in LinkedIn

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet. Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

Welcome Pack to my Connections in LinkedIn

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b) For those people of other countries who share the philosophy of Conservative Libertarians you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook.

No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b) For those people of other countries who share the philosophy of Conservative Libertarians you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

Welcome Pack to my Connections in LinkedIn

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

Welcome Pack to my Connections in LinkedIn

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b) For those people of other countries who share the philosophy of Conservative Libertarians you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

The Court of a Appeal much like the same over here is run on the same basis as a committee!

Along with that framework they take into consideration the feelings of the public, how will the public feel if they handed down an answer to a problem. It is a joke and has always been treated as such!

Your comments and encouragement are appreciated and apologies for distrusting your words of advice that the Court of Appeal in New Zealand and the United Kingdom and perhaps several other Commonwealth countries are run as a committee. Unfortunately there is no information here in the United Kingdom for the public to know the composition of the Committee at the Court of Appeal and we also do not know how the lower Courts function in any great detail. Having assessed the progress of my litgations and private prosecutions over a 26 year period, I feel that the State needs to be reformed to a Written Constitution that will serve the public and not the other way round totally. It should be a two-way thing. Just saying. I am not really bothered for structures are deeply ingrained in society. I am simply a truth seeker and nothing more.

I have a very dimension view of Court of Appeal as I have a friend being locked up for 25 years for something he never did. It has been proven that he didn't do it and after his 5th hearing this week they still won't let him go because he shows no remorse. Why should there be remorse if he has been pleading not guilty for 25 years?

We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

Reem, Welcome Pack to my Connections in LinkedIn

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet. Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

Rahul, Welcome Pack to my Connections in LinkedIn

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet. Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b For those people of other countries who share the philosophy of Conservative Libertarians you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

I will do my best in the limited space here: The Conservative Libertarians (UK) is permitted by virtue of the fact that both these Membership Accounts are validated as things stand this moment in time for these are funded by the Conservative Libertarian Publications Limited and the Membership accounts are held at JOIN IT and Brilliant Directories: this means that the Company can proceed with a business as usual modus operandi, in the absence of an adjudication from the Court authorities specifically who were approached by the Director at Medway County Court (Claim J00ME572) and Central London County Court (Claim E35YM660). The technical details of what the institution of Conservative Libertarians stand for are as follows: There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet. Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b) For those people of other countries who share the philosophy of Conservative Libertarians you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

I discovered that God exists as a Personal God who can be accessed by any human being if they follow a specific truth-path. Through this means we can find out what the best way of balancing life and religion is that allows us to look after ourselves in the pursuit of our material objectives like incomes, prosperity and security, family life, and that works in terms of the dharma that is enacted for Dharma Rakshati Rakshita (one who safeguards dharma, dharma safeguards the individual in to a good life with the fulfilment of all ones wishes. That is because we as Conservative Libertarians conduct karma in sanatan dharma, which has for me generated a concept of a society where truth, justice and democracy are the funding principles.

I find happiness in earning money and buying material things, which I can see, touch and use.

Whats wrong with that.

And what is that "specific truth path"? If material things don't matter, why is it 15 pounds? Why don't you give it for free as part of doing dharma?

There is absolutely nothing wrong with earning money with a decent career as long as it is dharmic in terms of being peaceful and non-violent. Shubh labh means that one can earn money through business ventures. I spend £300 a year to maintain this Conservative Libertarian (UK) website so have to recoup the cost of this through a Membership Fee. But if a person approaches me and requests free membership, I arrange this for it is a philanthropic exercise for me to promote my discoveries.

Hello Matilda, Hope you are keeping well. I need your opinion on a project that I have been working on: The Conservative Libertarians (UK) is permitted by virtue of the fact that both these Membership Accounts are validated as things stand this moment in time for these are funded by the Conservative Libertarian Publications Limited and the Membership accounts are held at JOIN IT and Brilliant Directories: this means that the Company can proceed with a business as

usual modus operandi, in the absence of an adjudication from the Court authorities specifically who were approached by the Director at Medway County Court (Claim J00ME572) and Central London County Court (Claim E35YM660). The technical details of what the institution of Conservative Libertarians stand for are as follows: There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b) For those people of other countries who share the philosophy of Conservative Libertarians you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

What does one do with nuisance phone calls like the one I have been plagued by on the Mobile Phone and Landline Phone that I repeatedly reported to Kent Police, but it does not stop:

'Landline Phone is rang at 10.51 am and stopped as if some message was being delivered to me or my family, or maybe it is being delusional as 38 Degrees and Peter Cook say to consider that the Security Services of M15/M16 have terrorised me over the past decade especially with its criminal anonymous emails sent to me and my associates in the United Kingdom and overseas.

I am campaigning with my mentor Peter Cook for the UK to rejoin the European Union for I have examined the unwritten Constitution of the United Kingdom and it requires some modification which is impossible from within.

That is the major reason that the judicial and law enforcement and regulatory systems are in total disarray here in the United Kingdom. The established political parties are unable to represent constituents in this process and are also not able to represent the interests of the constituents in parliament. Consequently democracy too is in shambles. I am talking from direct personal experience over a 26 year period.

That's a thoughtful perspective! Traveling really does expose us to the unpredictability of nature and life itself. Every journey can teach us something new, whether it's about the environment, different cultures, or even ourselves. Embracing that uncertainty often leads to the most memorable experiences. With our yoga, what I learnt is that we start with Faith like fishing in the dark, then Faith is abandoned because of the idea that one must be liberated, and that includes liberation from all things including Personal God, which sets us on the travel journey to test the hypothesis through experience of whether one has been protected by a supernatural power as you mentioned. God does not want any human being to be 'attached' to Him.(Edited)

When does a philosophy become a religion: that is a question that I have grappled with for years as a scientist by first degree and post graduate studies with the publication of 35 papers in refereed journals. The answer is if it works for you accept it as gospel truth; until something new dawns upon the mind to replace existing beliefs.

James, There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet. Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b) For those people of other countries who share the philosophy of Conservative Libertarians you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

In case you need additional information; please check here:

Good morning Mohit

Thank you for your emailed enquiry.

Yes to save time I would like assistance to enhance my websites for greater visibility to the world public, to attract sincere and knowledge-seeking individuals as Members or just subscribers passing by, and progress the future works of The Conservative Libertarian Publications Limited. This includes making money from my work and especially 358 eBooks.

Welcome Pack to my Connections in LinkedIn

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet. Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b) For those people of other countries who share the philosophy of Conservative Libertarians you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

Klevis my friend! Hello., Hope you are keeping well. I would appreciate your opinion on a project that I have been working on as follows.

The Conservative Libertarians (UK) is permitted by virtue of the fact that both its Membership Accounts are validated as things stand this moment in time for these are funded by the Conservative Libertarian Publications Limited and the Membership accounts are held at JOIN IT and Brilliant Directories: this means that the Company can proceed with a business as usual modus operandi, in the absence of an adjudication from the Court authorities specifically who were approached by the Director at Medway County Court (Claim J00ME572) and Central London County Court (Claim E35YM660).

The technical details of what the institution of Conservative Libertarians stand for are as follows: There are so many things wrong with the deeply and multi-polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes.  Hello Hope you are keeping well. I would appreciate your opinion on a project that I have been working on as follows.
 The Conservative Libertarians (UK) is permitted by virtue of the fact that both its Membership Accounts are validated as things stand this moment in time for these are funded by the Conservative Libertarian Publications Limited and the Membership accounts are held at JOIN IT and Brilliant Directories: this means that the Company can proceed with a business as usual modus operandi, in the absence of an adjudication from the Court authorities specifically who were approached by the Director at Medway County Court (Claim J00ME572) and Central London County Court (Claim E35YM660).
 The technical details of what the institution of Conservative Libertarians stand for are as follows: There are so many things wrong with the deeply and multi-polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

Hello, I usually try and find people to connect with for a given objective by fishing in the dark to save on time so go about this through a random selection of individuals. This is to assist my yoga process each step of the way through what I defined as satya-advaita yoga. I do however feel a sense of responsibility to initially respond back to an accepted-invitation with an acknowledgment-greeting and this is the purpose of saying 'Hello' to you. Please bear this in mind before interacting with me with a conversation.

If you understand this I can show where to go to discuss the possibilities: 22 March 2025:

MODUS OPERANDI OF CONSERVATIVE LIBERTARIANS

Hello. Hope you are keeping well.

This Welcome Pack communication is just to welcome you to our Community of Conservative Libertarians.

The Conservative Libertarians (UK) is permitted by virtue of the fact that both its Membership Accounts are validated as things stand this moment in time for these are funded by the Conservative Libertarian Publications Limited and the Membership accounts are held at JOIN IT and Brilliant Directories: this means that the Company can proceed with a business as usual modus operandi, in the absence of an adjudication from the Court authorities specifically who were approached by the Director at Medway County Court (Claim J00ME572) and Central London County Court (Claim E35YM660).

The technical details of what the institution of Conservative Libertarians stand for are as follows: There are so many things wrong with the deeply and multi-polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook. No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b) For those people of other countries who share the philosophy of Conservative Libertarians you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

Thanks Mahender for giving me the opportunity to explain myself. I am a yogi still and since I now realise that the universe is infinite, it has to be deduced that the amount of learning that one can muster within one's lifetime falls way short of what is required by an individual. So on what basis have people of a bygone age written so-called 'Holy books' like Koran, Bible, Guru Granth Sahib, the complete works of Buddhism, when I as a 68 year old now and have been a scientist working in the laboratory with a PhD, Post graduate Diploma in Agricultural Development, published 35 scientific papers and then studied Humanology Freelance with 362 chapters of a book entitled 'The Allurement of Reality' developed 'The Conservative Libertarian Society' with its two Membership websites according to the linked conceptualisation: <https://www.theconservativelibertariansociety.com/post/18-march-2025-modus-operandi-of-conservative-libertarians> and no one takes any notice of my pronunciations and I live on a meagre pension in one of the richest countries of the world: I must then be mad really would you not say?(Edited)

The Samadhi state within the practice of Vishista Advaita Vedanta comes naturally: the yoga ensures it, It is comprehensive yoga that one needs to practice, encompassing bhakti, gyana, karma, dharma, hatha, that I know of. That process of truth-discovery takes one along one's truth-path and the end product of that travel is the Samadhi state. In this state, one is beyond 'ananda' and in 'nirvana'.

Hello, I usually try and find people to connect with for a given objective by fishing in the dark to save on time so go about this through random selection of individuals. This is to assist my yoga process each step of the way through what I defined as satya-advaita yoga. I feel a responsibility to initially respond back with an acknowledgment greeting and this is the purpose of saying Hello. Please bear this in mind before interacting with me with a conversation.

Hello, I usually try and find people to connect with for a given objective by fishing in the dark to save on time so go about this through random selection of individuals. This is to assist my

yoga process each step of the way through what I defined as satya-advaita yoga. I feel a responsibility to initially respond back with an acknowledgment greeting and this is the purpose of saying Hello. Please bear this in mind before interacting with me with a conversation.

There are so many things wrong with the deeply polarised world in terms of the values that governments enunciate with their policies, and over the past 55 years I have made a study of this with particular reference to the United Kingdom where I lived, extending it to other countries with diverse ecological and religious attributes. There has been no one putting forward a commonsense unified view of how humanity could be brought together with a shared outlook.

No one has been knowledgeable enough to do that. Knowledge acquisition is a yogic endeavour that takes the whole of one's life to get to the Reality of our existence on this planet.

Today I am seeking to find like-minded people not just in the United Kingdom but also globally who share my vision and would like to get together in an attempt to bring truth, justice and democracy into the Constitutions of their countries.

(a) Our political party in the United Kingdom, named 'Conservative Libertarians (UK)' is located online at: <https://app.joinit.com/o/conservative-libertarians/> and this website is available for citizens and residents of the United Kingdom. We carry out this mission entirely lawfully within the Constitution of the United Kingdom that we have already tested for all our activities before embarking on this mission of proactive actions knowing that we will not violate the law which is of fundamental importance for peaceful living. It will be up to Conservative Libertarians around the world to determine the laws of their own countries in terms of their existing Constitutions so that they can also undertake their own missions of prosperity, peace and security.

In the United Kingdom at present we need 15 members to act as officials for our Party to enable us to complete our registration with the Electoral Commission of the United Kingdom as Conservative Libertarians (UK). If you are able and willing to assist us, please contact me.

(b) For those people of other countries who share the philosophy of Conservative Libertarians you may like to list yourselves in the Directory for Conservative Libertarians (Global) that is established online at <https://knowledgefoundersunited.com/>.

Just so you know who you have refunded incorrectly, this is a letter Shantanu sent to our MP (UK Politician) below.

Perhaps you will unsubscribe him from here and refund me the money owed.

FYI to the court and petitions committee – this chap has been harrassing my MP.

Just to be clear, the reason you have no support ticket is that:

I don't have a Stripe account.

As far as I can tell, Go Fund Me has nothing to do with Stripe. I have no idea why he mailed you reference a complaint to Go Fund Me.

None of this has anything to do with the courts of justice or the petitions committee. I can only repeat my apology to them.

To be perfectly clear, the problem here is that Mr Parigrahi has fabricated this complaint after I specifically told him NOT to donate further funds. He has also mixed up other complaints that

are nothing to do with me in his WORD document. I have now reported him to Kent Police for various threats and am very disappointed that Go Fund Me have taken his side without even contacting me for my input.

068VN00000JKTEG%3fasPdf=false&operationContext=CHATTER

I repeat, he has previously told me that he has a series of complex mental disorders. I suggest that these are the root cause of the e-mails he sent to you.

All,

I have now read the attachment which Mr Panigrahi sent. In this you will see that he infers that this matter is part of a much longer series of problems. I'm afraid that these are fictional and vexatious claims. I met him during the 2024 election, when he supported my campaign. He has donated to my campaign three times and, recently, AGAINST my advice. The other issues he mentions such as £640 or so, PayPal, Stripe are nothing to do with me.

I will be reporting Mr Panigrahi to the local police for stalking and libel if he does not cease and desist immediately and will advise him separately of this. I have discovered that he has also been trying this kind of behaviour with our local MP, whose staff have found his approaches threatening and have blocked him.

In his e-mail, Mr Panigrahi suggests I needed Peter Cook to be a Member of Conservative Libertarians (UK) to progress the attempt by the United Kingdom to Rejoin the European Union; as set out in the link: <https://www.theconservativelibertariansociety.com/post/18-march-2025-modus-operandi-of-conservative-libertarians> I'm afraid that the Conservative Libertarians party is a fabrication of Mr Panigrahi's mind.

I'm afraid you will have to read the rambling document (No News is Good News) to understand. He has invoked God into his argument. I'm afraid that God has nothing to do with this matter. Image removed by sender.

When I found out he was wanting me to join a far-right group, I advised him to stop further donations. But the donations were made, and the money he donated has been spent in good faith.

There is NO civil case in progress, nor is this to do with a petition, so please ignore the various e-mails. Stripe have nothing to do with this. He made some Go Fund Me donations. That is all. I am sorry that you have been troubled by this matter. See Civil Appeals, Petitions Committee and Stripe. It is purely an issue for Go Fund Me. He also seems to copy in Barclays Bank at one point. No such dealings have been made.

Image removed by sender.

Go Fund Me – please unsubscribe him from further updates. He is using these to pursue his bizarre campaign. I have blocked his e-mail account and will report him to Kent (Medway) Police as a precaution, since he has also visited my home. Mr Panigrahi has admitted separately that he has several complex mental health disorders and perhaps these are at the root of the problem. They however are not my problem, nor are they yours.

All the best

Sep,

As I have explained, Shantanu donated £25 ages ago, which was spent on the campaign. He then complained. After that he has once again donated after I asked him NOT to do that.

I think your suggestion of unsubscribing is the best course of action as this will prevent him from making further donations.

Hello Sap

I do not wish to be unsubscribed from GoFundMe following the clarification that you have provided; but would like the £50 (not £25 original donation) to be refunded now. This is because Peter Cook did not acknowledge my email as attached ToPeterCook(No News is Good News Peter_UrgencyImmediate)23Mar2025.docx; which was a vital part of the proceedings at the Court of Appeal. I needed Peter Cook to be a Member of Conservative Libertarians (UK) to progress the attempt by the United Kingdom to Rejoin the European Union; as set out in the link: <https://www.theconservativelibertariansociety.com/post/18-march-2025-modus-operandi-of-conservative-libertarians>

Once a refund is issued it cannot be reversed. Can you confirm that you would like a refund for your donation of 25 - GBP along with the tip of 3.5 - GBP made to the following fundraiser?

<https://www.gofundme.com/f/get-brexit-gone>

With your confirmation, I can issue that refund for you, and you will receive 100% of your money back within 3-7 business days. The organizer will receive a message to let them know about the refund.

I will keep an eye out for your response.

Best regards,

Sap

Hi Shantanu,

This is Kevin and I will be stepping in while my colleague is away.

I'm sorry to hear about this situation. I understand how frustrating it must be to deal with these ongoing concerns. Just to clarify, Stripe is our payment processor, and any transactions made through GoFundMe are processed securely through them.

You have been unsubscribed from all marketing emails.

Please note, that by continuing to use our products or services, you'll still receive important emails when relevant.

For example, if you donate in the future, you'll be sent a donation receipt. Or if you have a fundraiser, you'll receive reminders to set up your transfer.

Regards,

Kevin

Hi there,

Thank you for reaching out! I'd be glad to assist you further.

I'd be happy to help you identify the origin of it. If it was a card payment, you can use our secure charge look-up tool to find more information about the business that charged you:

<https://support.stripe.com/charge-lookup>

If you don't see any results, or if the payment was made through a bank account or other payment method, would you mind sharing a screenshot of the payment and providing me with the following information so that I can take a deeper look on my end?

If your card was charged, please provide following details:

- Card Last Four:
- Card Brand (Visa, MasterCard, Discover, etc.):
- Card Expiration (MM/YYYY):
- Reference number, if available (it should look like ST-xxxxx on your bank statement)

If your bank account was charged, please share following:

- Payment method used: (e.g. Ideal, Paypal, SEPA, BACS, FPX):
- Mandate reference:
- Last 4 digits of your bank account number or IBAN:
- Routing number / BIC of the account:

I really want to see this through so I'll keep an eye out for your reply. Please feel free to advise if you have additional questions or concerns and I'll gladly be on top of it.

Best,

Natalie

Hi Shantanu,

Thank you for your patience so far. Firstly, I apologize for the inconvenience you have faced so far in this email thread. I understand your customers have reported fraud and also understand how important this is for you. I read the email thread and found that you were concerned about the account with the name "The Conservative Libertarian Publications Limited". Upon checking, I saw the account was deleted. I have gone through the documents you shared in order to refer to the payment details. Upon checking the details carefully, I was unable to locate any transactions. In order to help us properly locate and identify the debit, I would like to ask you to verify the information you have provided and send us a picture of the debit as it appears on your bank statement.

To share an image with us, you can use our safe upload tool here:

https://support.stripe.com/filepickup/ut_live_3cEV4buRZuTxVBffnoyQy8I

I would also suggest contacting your bank or credit card company to see if they have any further information about the merchant who created the charge (as opposed to Stripe, the payment processor they used).

They should also be able to advise you how to proceed when you see a charge on your bank statement you don't recognize. I will be looking forward to your response. Best,Aarti

Hello, I usually try and find people to connect with for a given objective by fishing in the dark to save on time so go about this through a random selection of individuals. This is to assist my yoga process each step of the way through what I defined as satya-advaita yoga. I do however feel a sense of responsibility to initially respond back to an accepted-invitation with an acknowledgment-greeting and this is the purpose of saying 'Hello' to you. Please bear this in mind before interacting with me with a conversation.
